the matter to the Hon'ble Supreme Court for its opinion. The opinion of the Hon'ble Supreme Court was to be sought on whether the States of Rajasthan & Haryana are entitled to a share in the power generated from these hydel schemes and in case they are, what would be the share of each State.

However, subsequently in the discussions held between the Chief Ministers of Punjab, Haryana and Rajasthan on 29-30 July, 1992 and 6th August, 1992, a consensus was reached not to refer the matter to the Hon'ble Supreme Court. It was also decided that the States would come to a reasonable agreement through mutual consultations. In order to resolve the issue amicably, a number of formal and informal discussions have taken place. However, no consensus has emerged so far due to the divergent views of the stakeholder States. Meanwhile, the State of Punjab has enacted the 'Punjab Termination of Agreements Act 2004', terminating and discharging the Government of Punjab from its obligations under the agreement between Punjab, Haryana and Rajasthan dated 31.12.1981 on reallocation of waters and under all other agreements relating to waters of Ravi-Beas. Government of India has made a Presidential Reference to the Supreme Court inter alia whether the Punjab Termination of Agreements Act, 2004 and the provisions thereof are in accordance with the provisions of the Constitution of India.

National electricity fund

1028. SHRI D. RAJA: Will the Minister of POWER be pleased to state:

(a) whether Government is contemplating to create a National Electricity Fund to support the State Electricity Boards;

(b) if so, the details thereof and by when the fund is likely to be made available to the SEBs;

(c) whether Government intends to initiate some other steps to strengthen the cash-strapped SEBs; and

(d) if so, the details thereof?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) and (b) The Planning Commission has intimated that the Eleventh Plan document, approved by the National Development Council, has *inter-alia* recommended the setting up of a National Electricity Fund for supportive measures to bring about major improvement in the distribution system. It has been decided that Planning Commission will explore the option of establishing a National Electricity Fund to provide soft loans to States to improve their disribution infrastructure.

(c) and (d) It is proposed to introduce a restructured Accelerated Power Development and Reforms Programme (APDRP) in the 11th Plan with a focus on establishing base line data in respect of Aggregate Technical and Commercial (AT&C) losses, sanctioning projects for improvement of distribution network and incentivising utilities which achieve AT&C loss reduction.

Power cuts

1029. SHRI RAHUL BAJAJ:
SHRI RAJKUMAR DHOOT:

Will the Minister of POWER be pleased to state:

(a) the extent of power cuts in various States in urban and rural areas separately, during October-December, 2007; and

(b) whether it has increased or decreased over the corresponding quarter of the previous year?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) and (b) Electricity is a concurrent subject under the Constitution. The supply and distribution of electricity to different areas (urban/rural) and various categories of consumers in a State is within the purview of the concerned State Government/Power Utilities. However, according to information furnished by States to the Central Electricity Authority (CEA), the details of notified power cuts/restrictions on industries and power supply to agriculture sector during the period October to December, 2007 and corresponding period of the last year is given in the enclosed statement I and II respectively. (*See* below).

The above mentioned Annexes show instances of increase and decrease in power cuts/power supply to agriculture sector in States during October-December, 2007 as compared to the corresponding period in the previous year.

Statement-I

Details of Notified Power Cuts/Restrictions on Industries and Power Supply to agriculture sector during October to December, 2007

Notified Power Cuts/Restrictions on Industries during October, 2007

State/Region	Energy Cut	Demand Cut
1	2	3
Northern Region		
Chandigarh	Nil	Nil
Delhi	Nil	Nil
Haryana	0 MU/day to 0.825 MU/day on HT/LT industries on different days	0 to 250 MW cut on HT/LT industries for different hours on different days.
Himachal Pradesh	0.255 MU/day on HT/LT Industries	85 MW cut from 19:00 hrs to 22:00 hrs. daily on HT/LT industries.
Jammu & Kashmir	—	50% load off (non-essential) during 6 to 12 hrs, 14 to 16 hrs and 18 to 22 hrs. (total cut=6 hrs.) in Jammu; 3/7th load off (non-essential) during 5 to 8 hrs., 50% load off from 8 to 18 hrs. an 2/7th load off from 18 to 22 hrs. (Total cut=6 and 1/2 hrs.)
Punjab	1.8 MU/day on HT/LT industries	600 MW cut from 18:30 to 21:30 hrs. daily on HT/LT industries
Rajasthan	Nil	Nil

Implementation of RGGVY in Bihar

†1030. SHRI MANGANI LAL MANDAL: Will the Minister of POWER be pleased to state:

(a) what has been the outcome of implementation of Rajiv Gandhi Grameen Vidyutikaran Yojana in Bihar as on date;

(b) the targets achieved, so far, under the scheme for electrification of the targeted villages and what has been the physical and financial position as to the total cost incurred on the said scheme;

(c) whether it is a fact that Madhubani district is the most neglected district covered under this scheme and the areas, falling under Khutonna, Lookaha, Ghoghardiha and Phulparas Blocks and several villages like Sudyahi and Ghoonsahi, etc. have not been included in this scheme at any stage so far; and

(d) if so, what are the details in that regard?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) Bihar Government has submitted 44 DPRs covering electrification of 14195 un-electrified villages, re-electrification of 10508 de-electrified villages and intensive electrification of 6069 electrified villages with an outlay of Rs. 3345.68 crore.

(b) The implementing agencies have reported that electrification works in 12104 un-electrified villages (commulatively) have been carried out as on 15th February, 2008. They have also reported release of 66799 rural household connections, including 52817 BPL household connections in Bihar under RGGVY. Bihar State so far (as on 25th February, 2008) have availed Rs. 1288.23 crore under RGGVY.

(c) and (d) NHPC, the implementing agency of RGGVY project in Madhubani district, with concurrence of Bihar Government, has submitted two DPRs, one covering electrification of 16 un-electrified villages and re-electrification of 310 de-electrified villages under "Accelerated Electrification of One Lakh Villages and One Crore Households" which now stands merged with RGGVY. This project was sanctioned in March 2005.

Subsequently, NHPC has submitted supplementary DPR of Madhubani district covering electrification of 221 un-electrified villages, re-electrification of 27 de-electrified villages and intensive electrification of 459 already electrified villages which is yet to be approved.

Out of the four blocks, three blocks namely Lookana, Ghoghardiha and Phulparas find coverage in both the DPRs whereas Khutonna is not appearing in either of the DPRs.

†Original notice of the question was received in Hindi.
